

How to use Randulfs Timeline

STEP 1: Play

Play a game of Randulfs Party, this will produce a log file at “\Logs\#\Story.txt” at the root directory of the game launcher where # is the session ID. Optionally you can skip this step and load the test file provided in the folder of the tool.

STEP 2: Load

Start up the tool RanulfsTimeline.exe and press the button “Load log”. Navigate to the directory of Story.txt and press select. If you skipped step 1 then navigate to the root folder of RandulfsTimeline.exe and select the file named ExampleStory.txt.

STEP 3: Reading events

By hovering over events(the white dots) you will see information about the event and if the event is pressed it will stay open even when not hovered.
